AT
BALMENACH FARMS
ARNPRIOR, ONTARIO

61 LOTS

7 BULLS---54 FEMALES

Here are how the first calves of Kelso Ignition (P) looked at Tutira as youngsters. You can buy several on Sept. 11.

From The Sale Manager . . .

There are few sales on the fall schedule where you can find really top foundation stock. And, everyone knows that there is nothing more disappointing than traveling hundreds of miles in search of that "just-right" bull or female, only to find that only one or two will do.

Happily, when you arrive at the Tutira and Balmenach Sale on September 11 (or earlier) the choice will not only be broad, but it also will represent the very best of both herds. That's right. They are doing their best to insure **repeat business**. The only way to do that is to sell the kind that they prefer to keep. To that extent, some possible entries into this sale have been scrapped. If they didn't meet the standards of the herds, they didn't meet the standards of the sale.

Further, both Ken Parkinson and Mr. and Mrs. T. C. Stuart are dedicated **breeders** of cattle. A study of the stock bulls will prove that their dedication is aimed at the future, not just at a quick profit today. Consequently, you can buy bulls and females of **known heritage**, which is a greater insurance of their ability to improve for you.

You can also be sure that their guarantees will equal any in the business. These are people of foresight and integrity. Their cattle are among the best anywhere. You owe it to them and to the breed to be there on September 11.

HARRIS SIMONS
The Shorthorn World

How would you like to own a young bull calf like this? He's one of the first sons of Kelso Ignition (P) born at Tutira.

This is the main home at Tutira. Your visit is invited and welcomed on sale weekend.

WELCOME, FRIENDS

For some time each of us at Tutira and Balmenach have looked forward to this sale as what we hope will be the first in a long and successful series.

Our quest for good Shorthorns and Polled Shorthorns has taken us throughout the world and we are proud to boast stock bulls from three nations.

The progeny of Kelso Ignition (P) in both herds are a great pleasure to all of us and we offer them both reluctantly and with pride.

Although the sale will be held at Balmenach, Tutira is not a long drive. We'll be happy to arrange transportation for you to see the entire herd either before or after the sale.

Both herds have gone all-out for this initial venture and your visit on sale weekend will be our sincere pleasure. In the meantime, feel free to contact any of the owners or farm employees for any additional information you may require or for any assistance with travel arrangements. Remember the Laurentian Mountains around Tutira and the Ottawa Valley around Balmenach are great historic sites and should be at their most beautiful season in early September. If you can make a vacation of it, we'll be delighted to play a part in your plans.

Cordially,

K. B. Parkinson

KELSO IGNITION (P)

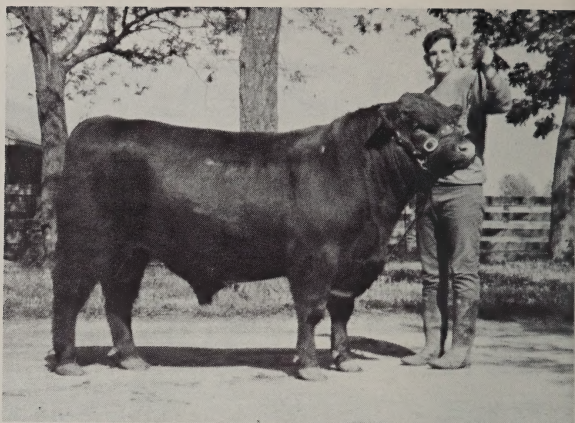

Kelso Ignition (P) was champion in the 18-21 month class at the 1970 Royal Easter Show in Sydney, Australia. In the sale there, eight of his half-brothers averaged more than double the average of the total sale. Twenty-seven of the first 30 ancestors in his pedigree are polled. He weighed 1,670 pounds at 18 months and 2,100 pounds at 30 months in his work clothes. And . . . he's proven himself to be a 100% dehorner.

Here is an exciting new outcross bloodline to add impetus to the breeding of BIG Polled Shorthorns in North America. One of his sons sells in the Balmenach offering, and eight of their big, rugged western Canadian females are bred to him. From Tutira, his owners, are offered five of his best sons and eight of his daughters. Further, seven of the females offered from Tutira sell with a calf at foot by him, and eight carry his service.

This is an opportunity to beef up your breeding program at auction sale prices that you just can't afford to miss.

TPS CORONET UNLIMITED 70th x

TPS Coronet Unlimited 70th x was reserve calf champion at the 1971 International and the Missouri State Fair and was All-American senior bull calf for 1972. He weighed 1,550 pounds at 18 months. Every animal in his pedigree is one of note in the show ring or as a breeder of top cattle. His sire, TPS Coronet Unlimited 14th x, weighed more than a ton as a two-year-old. His grandsire, Coronet Max Leader 6th x, was a massive bull that sired numerous champions. Every open female in the Tutira offering sells with breeding privilege to him. And . . . six sell in calf to him.

Pleasant Dawn Riverhurst 3rd x

Pleasant Dawn Riverhurst 3rd x was champion and top of the 1967 Manitoba Polled Shorthorn sale. He weighed 2,190 pounds at 40 months. While only one of his daughters is being offered by Tutira, every open female in the Tutira offering will sell with breeding privilege to him.

PLEASANT DAWN PRINCE 3rd x

Pleasant Dawn Prince x is senior herd sire at Balmenach. Out of a dam by Hi Way Royal Oak x, Pleasant Dawn Prince x is the 100% dehorning, big, strapping three-year-old son of Pleasant Dawn Approval x. Eighteen of the big Canadian females being offered by Balmenach are in calf to him, and five sell with calves at foot by him.

BALMENACH CAPTAIN COOK x

Balmenach Captain Cook x is the only son of Kelso Ignition (P) being offered in Balmenach, but he's a good one. Another picture and his pedigree appear on page 10, as two-thirds interest and possession sell. Eight of the outstanding females offered by Balmenach are in calf to him.
